

SAN DIEGO UNIFIED SCHOOL DISTRICT

Proposition S

(This proposition will appear on the ballot in the following form.)

PROP S

SAN DIEGO SCHOOL REPAIR AND SAFETY MEASURE. To improve every neighborhood school by; repairing outdated student restrooms, deteriorated plumbing and roofs; upgrading career/vocational classrooms and labs; providing up-to-date classroom technology; improving school safety/security; replacing dilapidated portable classrooms; upgrading fire alarms; and removing hazardous substances; shall San Diego Unified School District issue \$2,100,000,000 in bonds at legal interest rates, requiring independent citizen oversight, annual audits, NO money for administrators, and bonds issued only if NO estimated tax rate increase?

This proposition requires approval by 55%
of the voters voting on the proposition.

Full text of this proposition follows the arguments and rebuttals.

COUNTY COUNSEL IMPARTIAL ANALYSIS

This proposition, if approved by 55% of the voters voting on the proposition, would authorize the San Diego Unified School District ("District") to issue and sell up to \$2,100,000,000 in general obligation bonds. The sale of these bonds by the District will raise money for the District, and represents a debt of the District. In exchange for the money received from the bondholders, the District promises to pay the bondholders an amount of interest for a certain period of time, and to repay the loan on the maturity date.

Proceeds from the sale of bonds authorized by this proposition may be used by the District only for the construction, reconstruction and/or rehabilitation of its school facilities, including the furnishing and equipping of its school facilities, acquisition, or lease of real property for its school facilities and construction management by District personnel.

The interest rate on any bond, which is established at the time of bond issuance, cannot exceed 12% per annum. The final maturity date of any bond could be no later than 25 years after the date of bonds issued pursuant to the Education Code or not later than 40 years after the date of bonds issued pursuant to the Government Code. Principal and interest on the bonds would be paid by revenue derived from an annual tax levied on taxable property within the District in an amount sufficient to pay the interest as it becomes due and to provide a fund for payment of the principal on or before maturity.

California Constitution Article XIII A exempts from the one percent property tax rate limitation ad valorem taxes to pay the interest and redemption charges on any bonded indebtedness for the acquisition or improvement of real property, including the furnishing and equipping of school facilities, when approved by 55% of the voters if: (a) the proceeds from the sale of the bonds are used only for the purposes specified, (b) the District, by evaluating safety, class size reduction, and information technology, has approved a list of specific projects to be funded, (c) the District will conduct an annual, independent performance audit, and (d) the District will conduct an annual, independent financial audit. If a bond measure is approved by 55% of the voters, state law requires the governing board of the District to establish an independent citizens' oversight committee. The District has made this ballot proposition subject to these requirements.

A "yes" vote is a vote in favor of authorizing the San Diego Unified School District to issue and sell up to \$2,100,000,000 in general obligation bonds.

A "no" vote is a vote against authorizing the San Diego Unified School District to issue and sell up to \$2,100,000,000 in general obligation bonds.

TAX RATE STATEMENT

An election will be held in the San Diego Unified School District (the "District") on November 4, 2008, to authorize the sale of up to \$2,100,000,000 in bonds of the District to finance school facilities as described in the proposition. If the bonds are approved, the District expects to sell the bonds in six series over time. Principal and interest on the bonds will be payable from the proceeds of tax levies made upon the taxable property in the District. The information presented in numbered paragraphs 1-3 below is provided in compliance with Sections 9400-9404 of the Elections Code of the State of California.

1. The best estimate of the tax which would be required to be levied to fund this bond issue during the first fiscal year after the sale of the first series of bonds, based on estimated assessed valuations available at the time of filing of this statement, is 0.47 cents per \$100 (\$4.70 per \$100,000) of assessed valuation in fiscal year 2010-11.
2. The best estimate of the tax rate which would be required to be levied to fund this bond issue during the first fiscal year after the sale of the last series of bonds, based on estimated assessed valuations available at the time of filing of this statement, is 2.07 cents per \$100 (\$20.70 per \$100,000) of assessed valuation in fiscal year 2020-21.
3. The best estimate of the highest tax rate which would be required to be levied to fund this bond issue, based on estimated assessed valuations available at the time of filing of this statement, is 60 cents per \$100 (\$60.00 per \$100,000) of assessed valuation in fiscal year 2029-30 and each year thereafter until final maturity of the bonds.

The District intends to structure the proposed bonds so that the estimated combined tax rate needed to repay all of the District's bonds, including Proposition MM Bonds which rate is \$66.70/\$100,000 of assessed valuation in the 2007-08 fiscal year, will not increase as a result of the issuance of the proposed bonds.

Voters should note that the estimated tax rates are based on the *ASSESSED VALUE* of taxable property in the District as shown on the County's official tax rolls, *not* on the property's market value. Property owners should consult their own property tax bills to determine their property's assessed value and any applicable tax exemptions.

The foregoing information is based upon the District's projections and estimates. Approval of the ballot measure authorizes the issuance of bonds under certain conditions, and is not approval of a specific tax rate. The actual tax rates and the years in which they will apply may vary from those presently estimated, due to variations from these estimates in the timing of bond sales, the amount and repayment structure of bonds sold, market interest rates at the time of each sale, and actual assessed valuations over the term of repayment of the bonds. The dates of sale and the amount and repayment structure of bonds sold at any given time will be determined by the District based on its need for construction funds and other factors, including the legal limitations on bonds approved by a 55% vote. The actual interest rates at which the bonds will be sold will depend on the bond market at the time of each sale. Actual future assessed valuation will depend upon the amount and value of taxable property within the District as determined by the County Assessor in the annual assessment and the equalization process.

STATEMENT REQUIRED BY EDUCATION CODE SECTION 15122.5

"Approval of Proposition S does not guarantee that the proposed project or projects in the San Diego Unified School District that are the subject of bonds under Proposition S will be funded beyond the local revenues generated by Proposition S. The District's proposal for the project or projects assumes the receipt of matching state funds, which could be subject to appropriation by the Legislature or approval of a statewide bond measure."

ARGUMENT IN FAVOR OF PROPOSITION S

PROP. S MAKES URGENTLY NEEDED REPAIRS TO OUR NEIGHBORHOOD SCHOOLS.

Most San Diego schools are 40+ years old. Prop. S repairs leaky roofs, frayed electrical wiring, leaky pipes and plumbing. Prop. S fixes school bathrooms, dangerous heating and electrical systems, broken steps, and cracked sidewalks. Prop. S replaces deteriorating portable classrooms.

PROP. S IMPROVES SAFETY FOR 130,000 SCHOOL CHILDREN AND 8,000 CLASSROOM TEACHERS.

Prop. S removes hazardous asbestos and mold, upgrades fire alarms/safety doors, fixes unsafe school drop-off and pick-up zones, makes schools disabled-accessible, improves air quality, energy efficiency and installs security systems to protect our children.

PROP. S PREPARES OUR CHILDREN FOR 21st CENTURY JOBS.

Prop. S. renovates and upgrades classrooms for Career/Vocational Programs that teach "real world" job skills. Prop. S wires every classroom and school for WiFi and the Internet, with technology upgrades for every school in every neighborhood.

PROP. S MAINTAINS THE CURRENT TAX RATE WITH NO INCREASE. Prop. S replaces an expiring bond with a new one, so our tax rate will not be increased.

IT'S THE LAW! ACCOUNTABILITY IS BUILT INTO PROP. S:

- STRICT TAXPAYER SAFEGUARDS.
- AN INDEPENDENT CITIZENS' OVERSIGHT COMMITTEE.
- NO FUNDS FOR CENTRAL ADMINISTRATION. Bond money can only be spent on classrooms, buildings and schools.
- ANNUAL, INDEPENDENT AUDITS.
- A DETAILED PUBLIC EXPENDITURE PLAN SPELLS OUT EXACTLY WHAT PROP. S WILL ACCOMPLISH.

PROP. S – THE PLATINUM STANDARD FOR OPENNESS AND TRANSPARENCY.

Find every Prop. S repair and renovation project at your neighborhood school on-line: www.edforchildren.com/improvements.

PROP. S. WILL MAKE SAN DIEGO ELIGIBLE FOR STATE MATCHING FUNDS. We need to make these repairs now. It will only get more expensive if we wait.

**San Diego City Schools earned two "Golden Watchdog" Awards
from the San Diego Taxpayers Association
for excellent fiscal management of their last bond.**

REBUTTAL TO THE ARGUMENT IN FAVOR OF PROPOSITION S

The San Diego Unified School District is seeking to impose an additional property tax on the city's already overtaxed homeowners. In doing so the School District ignores developer subsidies such as those given to luxury high-rise condos in downtown San Diego. Homeowners are now being asked to backfill a funding deficit.

The District's argument speaks of leaky roofs, frayed wiring, leaky pipes and plumbing, dangerous heating and electrical systems, broken steps, cracked sidewalks, asbestos, mold, broken toilets and classrooms without air-conditioning. Far from justifying a tax hike, this suggests massive neglect of school property over the last decade, while property tax revenue soared by 255%.

The truth is that the District horribly mismanaged the 1998 Prop MM money. School enrollment has been steadily dropping. It will continue to drop until about 2013. The District should be consolidating schools and selling unneeded school properties. Instead they keep smaller schools open. They cut teachers but not bureaucracy.

They argue that: "Prop S maintains the current tax rate with no increase". Because the Prop 13 "rate" of 1% property tax has not changed since 1978 does not mean the actual property "tax" has not increased! They deliberately substituted the word "rate" for "tax" in order to confuse the voters.

Prop S would fall most heavily on those who purchased homes in the last decade. The building industry is in favor of this new property tax because it would transfer a further \$2.1 billion from homeowners to businesses. This is a massive transfer of wealth. Vote NO on Proposition S

PAT FLANNERY
Real Estate Broker

RICHARD RIDER
Chairman, San Diego Tax Fighters

ARGUMENT AGAINST PROPOSITION S

San Diego home owners pay among the highest real estate taxes in the nation. San Diego home prices soared over the last few years and local government reaped a tax windfall. Yet it is not enough. They would now add an extra \$2.1 billion in school debt.

If you currently own a home valued at \$500,000, Prop "S" would impose an additional \$300 per year. This is on top of the base \$5,000 tax (1% according to Prop 13) you already pay. And you are still paying off previous school debt. Something is wrong.

90% of downtown real estate taxes (over \$100 million) are "diverted" to subsidize downtown developers. You are being asked to backfill this school funding hole. Your tax dollars were "diverted" from your children's education to so-called "redevelopment".

Home owners pay 78% of all property taxes collected in San Diego County. Condo owners alone pay more taxes than all the commercial owners in the County combined. Don't pay for your children's education twice. Vote "NO" on Prop "S".

TAXPAYERS FOR SHARING REDEVELOPMENT FUNDS WIITH SCHOOLS

REBUTTAL TO THE ARGUMENT AGAINST PROPOSITION S

"The opposition is wrong. **Prop. S will NOT raise our taxes.** Proposition S bonds simply replace expiring Proposition MM bonds. Our taxes will NOT increase."

– John O'Neill, Chairman

San Diego County Taxpayers Association

Prop. S. Strict Accountability and Taxpayer Safeguards.

- Independent Annual Audits.
- Independent Citizens Oversight Committee.
- No money for administrators' salaries.
- Repairs and renovations for every neighborhood school are on-line: (www.edforchildren.com/improvements).

Prop. S. Essential repairs and upgrades to improve health, safety and security of our neighborhood schools – with no tax increase.

In 1998, voters approved Prop. MM to begin repairs and renovations at 180+ neighborhood schools. MM was a tremendous success, delivering projects ahead of schedule and saving taxpayers \$82 million through effective financial management. Prop. S continues repairs and revitalization of neighborhood schools begun under MM – without raising taxes.

Many neighborhood schools, built in the 50s and 60s, need basic repairs and upgrades for 21st Century learning.

Prop. S replaces obsolete fire protection systems; installs emergency communications to improve school safety; repairs roofs, outdated electrical, air conditioning, heating and plumbing; increases disabled accessibility; repairs restrooms; and increases technology in every neighborhood school.

If we don't pass Prop. S now, it will only cost more to make these repairs later. This is a good financial investment. Good schools raise home prices and prevent neighborhood deterioration.

"130,000 school children and 8,000 classroom teachers need Prop. S."

EXHIBIT A FULL TEXT OF PROPOSITION

SCHOOL REPAIR AND SAFETY MEASURE OF 2008

This Proposition may be known and referred to as the "School Repair and Safety Measure of 2008" or as "Proposition S."

FINDINGS

San Diego Unified School District is over 150 years old, and currently serves over 135,000 students.

In the late 1990s, the District undertook the largest public review of school facilities in its history which became the basis for the Long Range Facilities Master Plan that identified about \$1.5 billion of critically needed facility improvements, as well as about \$2.5 billion of needed additional renovation and new construction.

On July 1, 1998, voters in the District approved Proposition MM ("Proposition MM"), authorizing the District to issue \$1.51 billion in bonds (the "Proposition MM Bonds") to modernize and construct school facilities, and since its approval, Proposition MM Bonds have funded repairs at 161 schools, construction of 12 new school and the rebuilding of three schools.

The Board of Education now seeks authorization to issue general obligation bonds to provide financing to continue the elementary school, middle school and high school repair, modernization and construction projects identified by the District.

BOND AUTHORIZATION

To provide financing for the specific school facilities projects listed in the Bond Project List below, and in order to qualify to receive State matching grant funds, and upon approval of this proposition by at least 55% of the registered voters voting on the proposition, the San Diego Unified School District shall be authorized to issue and sell bonds of up to \$2,100,000,000 in aggregate principal amount subject to all of the accountability safeguards specified below.

Proceeds from the sale of bonds authorized by this proposition shall be used only for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses. Proceeds of the bonds may be used to pay or reimburse the District for the cost of District staff when performing work on or necessary and incidental to the bond projects.

ACCOUNTABILITY SAFEGUARDS

The provisions in this section are specifically included in this proposition in order that the San Diego Unified School District's voters and taxpayers may be assured that their money will be spent wisely to address specific facilities needs of the San Diego Unified School District, all in compliance with the requirements of Article XIII A, Section 1(b)(3) of the State Constitution, and the Strict Accountability in Local School Construction Bonds Act of 2000 (Education Code Sections 15264 and following).

Evaluation of Needs. The Board of Education has prepared an updated facilities plan in order to evaluate and address all of the facilities needs of the San Diego Unified School District at each campus and facility, and to determine which projects to finance from a local bond at this time. The Board of Education hereby certifies that it has evaluated safety, class size reduction and information technology needs in developing the Bond Project List.

ACCOUNTABILITY SAFEGUARDS (Continued)

Bond Issuance Limitation. The District is required by law to make its best estimates of the ad valorem property tax rate required to be levied on all taxable property in the District to pay debt service on the proposed bonds. The District's tax rate estimates appear in the Tax Rate Statement that the Registrar is required to provide in the Voter Information Pamphlet mailed to voters in connection with the election. Based on historical assessed value data and certain assumptions about future growth in assessed values and how, when and at what cost the bonds will be issued, the District shall only issue bonds if it projects that the tax rate necessary to pay debt service on the proposed bonds, when combined with the tax rate necessary to pay debt service on presently outstanding bonds in each year, will not exceed the rate levied in the 2007-08 fiscal year (being \$66.70/\$100,000 of assessed value) to pay debt service on the presently outstanding bonds alone.

Independent Citizens' Oversight Committee. The Board of Education shall establish an independent Citizens' Oversight Committee (pursuant to Education Code Section 15278 and following), to ensure bond proceeds are spent only for the school facilities projects listed in the Bond Project List. The committee shall be established within 60 days of the date when the results of the election appear in the minutes of the Board of Education.

Annual Performance Audits. The Board of Education shall conduct an annual, independent performance audit to ensure that the bond proceeds have been expended only on the school facilities projects listed in the Bond Project List.

Annual Financial Audits. The Board of Education shall conduct an annual, independent financial audit of the bond proceeds until all of those proceeds have been spent for the school facilities projects listed in the Bond Project List.

Special Bond Proceeds Account; Annual Report to Board. Upon approval of this proposition and the sale of any bonds approved, the Board of Education shall take actions necessary pursuant to Government Code Section 53410 and following to establish an account in which proceeds of the sale of bonds will be deposited. As long as any proceeds of the bonds remain unexpended, the Superintendent of the District shall cause a report to be filed with the Board no later than December 31 of each year, commencing December 31, 2009, stating (1) the amount of bond proceeds received and expended in that year, and (2) the status of any project funded or to be funded from bond proceeds. The report may relate to the calendar year, fiscal year, or other appropriate annual period as the Superintendent shall determine, and may be incorporated into the annual budget, audit, or other appropriate routine report to the Board.

BOND PROJECT LIST

The Bond Project List below describes the specific projects the San Diego Unified School District proposes to finance with proceeds of the bonds. Listed projects will be completed as needed at a particular school site according to Board-established priorities, and the order in which such projects appear on the Bond Project List is not an indication of priority for funding or completion. The final cost of each project will be determined as plans are finalized, construction bids are awarded, and projects are completed. Certain construction funds expected from non-bond sources, including State grant funds for eligible projects, have not yet been secured. Until all project costs and funding sources are known, the Board of Education cannot determine the amount of bond proceeds available to be spent on each project, nor guarantee that the bonds will provide sufficient funds to allow completion of all listed projects. Completion of some projects may be subject to further government approvals by State officials and boards, to local environmental review, and to input from the public. For these reasons, inclusion of a project on the Bond Project List is not a guarantee that the project will be funded or completed. The Board of Education may make changes to the Bond Project List in the future consistent with the projects specified in the proposition.

PART ONE:

Site Discretionary Funds. Each elementary, middle and high school, including charter schools, may allocate \$150 per student of bond proceeds (as "site discretionary funds") to be spent on qualified, permitted projects that shall remain property of the District listed in this Part One of the Bond Project List.

Specific Projects. Unless otherwise noted, the following projects are authorized to be completed at each or any of the District's sites, including child development centers and other District facilities (or, in the case of an allocation of site discretionary funds, including at any charter school site):

School Improvements to Support Student Health, Safety & Security

- Replace obsolete fire alarms, including emergency communications systems
- Improve safety of student drop-off and pick-up areas, parking, and pedestrian and vehicular circulation
- Provide school site security improvements, including increased lighting, and vandalism and intrusion safeguards
- Meet increased earthquake and seismic standards in pre-1976 school buildings
- Remove and abate asbestos, mold, or other potentially dangerous substances
- Upgrade and install classroom ventilation or air conditioning
- Improve and install student and neighborhood use play fields with joint-use funding

Projects to Improve School Accessibility: Code Compliance Upgrades

- Modernize and renovate or expand student restrooms
- Upgrade and expand student food service areas and kitchens to meet increased standards
- Modernize and renovate physical education facilities, playgrounds and fields for accessibility and safety
- Repair and replace aging and obsolete portable classrooms
- Improve accessibility for disabled persons and comply with Americans with Disabilities Act (ADA) and Title 24

School Improvements to Support Student Learning & Instruction

- Provide up-to-date classroom and instructional technology required for 21st century student learning and teaching
- Upgrade and expand classrooms, labs, and specialized facilities for career and vocational technology programs
- Provide and modernize classrooms, labs, and specialized facilities for high school students
- Improve inadequate loft classrooms

Major Building Systems Repair and Replacement

- Complete major repair and renovation projects as indicated:
 - Repair and replace deteriorating plumbing and underground sewer systems
 - Repair and replace aging, leaky roofs
 - Repair and replace outdated, inefficient heating, ventilation and air cooling systems
 - Upgrade electrical capacity, repair aging wiring, to support instructional technology
 - Repair and restore classroom and building interior and exterior finishes and fixtures
- Repair and replace inadequate temporary classrooms, school buildings or sites with cost-effective permanent construction

Accommodating Student Enrollment

- Provide matching funds to plan and construct classrooms and schools as needed for enrollment growth

Charter School Facilities

- Consistent with the District's obligation under Proposition 39 (approved by California voters in November 2000) and Section 47614 of the Education Code, provide classroom capacity, including furnishings and equipment, for in-district charter school students at a level comparable to students attending district-run schools

PART TWO:

Unless otherwise noted, the following projects are authorized to be completed at the following school sites:

Adams Elementary School, 4672 35th Street, San Diego, CA 92116

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Meet increased seismic standards for school buildings
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install new hand sinks
- Install new drinking fountain

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/upgrade electrical system
- Repair/restore buildings' interiors, exteriors, finishes and fixtures
- Resurface asphalt parking lots and playground areas as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Alcott Elementary School, 4680 Hidalgo Avenue, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide directional signage for student drop-off and pick-up
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Install a site communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Resurface asphalt parking lots and playground areas as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Angier Elementary School, 8450 Hurlbut Street, San Diego, CA 92123

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace heating and ventilation systems as needed
- Repair/restore buildings' interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Audubon School, 8111 San Vicente Street, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide student drop-off and pick-up areas
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Retrofit/install classroom heating, ventilation and air-conditioning systems
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install hand sink in kitchen area
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks, hardscape areas and ramps
- Repair/restore buildings' interiors, exteriors, finishes and fixtures
- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace/upgrade performance spaces/multipurpose rooms

Baker Elementary School, 4041 T Street, San Diego, CA 92113

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide directional signage for student drop-off and pick-up
- Expand parking area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Perform intrusion system and fire alarm upgrades throughout campus
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms, including additional administration and instructional support space
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install hand sinks
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace heating and ventilation systems as needed
- Resurface asphalt parking lots and playgrounds as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Balboa Elementary School, 1844 South 40th Street, San Diego, CA 92113

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up area
- Expand parking area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Install a site communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Perform structural improvements as needed to comply with current seismic codes
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen

Major Building Systems Repair/Replacement

- Repair/replace heating and ventilation system
- Repair windows
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace aging wiring and electrical systems, as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Barnard Elementary School, 2930 Barnard Street, San Diego, CA 92110

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide student drop-off and pick-up, including increased area for bus drop-off/loading, due to magnet school
- Expand parking area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms
- Renovate and expand existing kitchen facility to meet district standards

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Replace auditorium roof
- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace aging wiring and upgrade electrical systems, as needed
- Restore/repair building interiors, exteriors, finishes and fixtures
- Resurface asphalt in parking lots and playground areas as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Bay Park Elementary School, 2433 Denver Street, San Diego, CA 92110

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area, providing additional parking spaces, including designated staff parking as needed
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms, including additional administration and instructional support space
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace heating and ventilation system site as needed
- Repair site sidewalks and hardscape areas
- Upgrade electrical system as needed
- Improve site drainage
- Repair/restore building interiors, exteriors including windows, finishes, and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Bayview Terrace Elementary School, 2445 Fogg Street, San Diego, CA 92109

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Install a site communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Replace kindergarten playground safety matting

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms, including additional administration and instructional support space
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Replace/repair heating and ventilation systems as needed
- Repair site sidewalks and hardscape areas
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace aging wiring and upgrade electrical systems
- Repair/replace deteriorating plumbing and sewer systems
- Resurface asphalt parking lots and playground areas as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Benchley/Weinberger Elementary School, 6269 Twin Lake Drive, San Diego, CA 92119

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide drop-off zone improvements as necessary to increase student safety
- Expand parking area
- Install security lighting, as well as, increase vandalism and intrusion/fire safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms, including additional administration and instructional support space
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install hand sinks as needed
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer system
- Repair/replace aging door assemblies and hardware where necessary
- Repair/replace deteriorated ceiling finishes where needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Bethune School, 6835 Benjamin Holt Road, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide improvements to support student drop-off and pick-up
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Retrofit/install classroom heating, ventilation, and air-conditioning systems

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace gutters, downspouts, catch-basins and underground piping as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Renovate/replace old doors, locks and hardware as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures

Bird Rock Elementary School, 5371 La Jolla Hermosa Avenue, La Jolla, CA 92037

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Repair/replace/remove old portable classrooms

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Expand restroom capacity to include service at kindergarten classrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Install new hand sink in kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks, hardscape , landscape and drainage areas to include asphalt overlay and irrigation repair
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Birney Elementary School, 4345 Campus Avenue, San Diego, CA 92103

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide improvements to student drop-off and bus zones as necessary
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Update kitchen to include three-compartment sink and hand wash sink
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks, hardscape and landscape areas to include repair of irrigation system
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Boone Elementary School, 7330 Brookhaven Road, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide improvements to student drop-off and pick-up to include directional signage
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Retrofit/install classroom heating, ventilation, and air-conditioning system

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen and hand sink
- Provide food service staff restrooms and lockers
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace roof systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Burbank Elementary School, 2146 Julian Avenue, San Diego, CA 92113

Burbank Elementary School opened in 2007 as a completely new facility. As one of San Diego Unified School District's newest schools, Burbank Elementary School meets the current district facility standards. Future improvements, within the areas of need identified in the bond measure, may be required. This school will benefit from the site discretionary fund allocation of \$150 per student.

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)

Cabrillo Elementary School, 3120 Talbot Street, San Diego, CA 92106

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide improvements to student drop-off and pick-up areas
- Provide additional parking
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II to include repairs of restroom floors and plumbing
- Provide ADA-compliant restrooms at Kindergarten classrooms
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Improve ventilation in Special Education classroom, offices and library
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace aging door assemblies and hardware where necessary
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Cadman Elementary School, 4370 Kamloop Avenue, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Modify student drop-off and pick-up from vehicles and improve vehicular circulation
- Expand parking area, providing additional parking
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing, to include new locking gates at fields
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas and add walkway from classrooms to fields
- Repair/replace ventilation and heating systems as needed
- Repair/replace kitchen equipment
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace aging wiring and upgrade electrical systems
- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace/upgrade performance spaces/multipurpose rooms

Carson Elementary School, 6905 Kramer Street, San Diego, CA 92111

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide location for student drop-off and pick-up area
- Provide additional parking
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms
- Install a three-compartment sink in kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks, hardscape, stairs, floors, and walls
- Repair/replace heating and ventilation systems as needed
- Repair/replace aging wiring and upgrade electrical system
- Repair and replace deteriorating plumbing and sewer systems
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Carver Elementary School, 3251 Juanita Street, San Diego, CA 92105

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide directional signage for student drop-off and pick-up
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Provide area for special needs students to include changing tables for boys and girls
- Provide campus-wide emergency communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Retrofit/install classroom heating, ventilation, and air-conditioning system

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Central Elementary School, 4063 Polk Avenue, San Diego, CA 92105

Major Building Systems Repair/Replacement

- Repair/replace inadequate school buildings with permanent, cost-effective construction

Chavez Elementary School, 1404 South 40th Street, San Diego, CA 92113

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up areas, as well as circulation in parking lot
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing, security gate, and security in bus drop-off area

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace heating, ventilation, and air-conditioning systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures

Cherokee Point Elementary School, 3735 38th Street, San Diego, CA 92105

Cherokee Point Elementary School opened in 2005 as a completely new facility. As one of San Diego Unified School District's newest schools, Cherokee Point Elementary School meets the current district facility standards. Future improvements, within the areas of need identified in the bond measure, may be required. This school will benefit from the site discretionary fund allocation of \$150 per student.

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Install air-conditioning systems in educational spaces

Chesterton Elementary School, 7335 Wheatley Street, San Diego, CA 92111

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Improve student drop-off and pick-up areas
- Remove or minimize the risks of any potentially hazardous materials throughout facility as needed

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas including removal of tripping hazards in the kindergarten area
- Repair/upgrade building interiors, exteriors, finishes and fixtures
- Resurface asphalt parking lots and playground areas as needed
- Repair/replace heating and ventilation systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Chollas/Mead Elementary School, 401 N. 45th Street, San Diego, CA 92102

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI) at Chollas
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students at Chollas

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms at Chollas
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in Chollas kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems as needed
- Replace aging wiring and upgrade electrical systems at Chollas
- Repair/replace old or damaged drinking fountains as needed at Chollas
- Repair/restore building interiors, exteriors, finishes and fixtures at Chollas

Clay Elementary School, 6506 Solita Avenue, San Diego, CA 92115

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing, to include the joint use area
- Retrofit/install heating, ventilation and air-conditioning systems
- Remove or minimize any risks of potentially hazardous material throughout the facility as needed

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Crown Point Elementary School, 4033 Ingraham Street, San Diego, CA 92109

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide performing arts space and other spaces needed to support Suzuki Strings Program

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install kitchen grease trap to comply with city regulations

Major Building Systems Repair/Replacement

- Repair/restore building interiors, exteriors, finishes and fixtures.
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace gutters, downspouts and catch-basins as needed

Cubberley Elementary School, 3201 Marathon Drive, San Diego, CA 92123

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up area
- Expand parking area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Curie Elementary School, 4080 Governor Drive, San Diego, CA 92122

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Meet new, stringent health standards by renovating kitchens and food service areas
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms
- Renovate and expand existing kitchen facility to meet district standards
- Install a three-compartment sink in kitchen

Major Building Systems Repair/Replacement

- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace heating and ventilation systems
- Repair/replace/upgrade performance spaces/multipurpose rooms

Dailard Elementary School, 6425 Cibola Road, San Diego, CA 92120

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Improve parking lot circulation for safety
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Install hand sink in kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Resurface asphalt parking lots and playground areas as needed
- Upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Dewey Elementary School, 3251 Rosecrans Street, San Diego, CA 92110

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area and improve student drop-off area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace heating and ventilation systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair and replace gutters, downspouts, catch-basins and underground piping as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Dingeman Elementary School, 11840 Scripps Creek Drive, San Diego, CA 92131

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing areas behind portables
- Retrofit/install classroom heating, ventilation and air-conditioning systems

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/restore building interiors, exteriors, finishes and fixtures
- Upgrade electrical systems as needed
- Resurface asphalt parking lots and playground areas as needed

Doyle Elementary School, 3950 Berino Court, San Diego, CA 92122

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide directional signage for student drop-off and pick-up
- Reconfigure parking
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II, to include accessible hardware on doors.
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks, hardscape and irrigation systems
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures

E.B. Scripps Elementary School, 11778 Cypress Canyon Road, San Diego, CA 92131

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Retrofit/install classroom heating, ventilation, and air-conditioning system

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovated during Prop MM

Major Building Systems Repair/Replacement

- Renovated during Prop MM

Edison Elementary School, 4077 35th Street, San Diego, CA 92104

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide improved student drop-off and pick-up area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen

Major Building Systems Repair/Replacement

- Repair/replace heating and ventilation systems as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Upgrade electrical system as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Emerson/Bandini Elementary School, 3510 Newton Avenue, San Diego, CA 92113

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including alarm system upgrade and modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Improve student drop-off and pick-up area and increase parking

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Provide seismic upgrades and structural repairs as needed
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Resurface asphalt parking lots and playground areas as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Encanto Elementary School, 822 65th Street, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide air-conditioning in educational spaces
- Join with the City of San Diego to co-fund joint-use playfields

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and expand capacity
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Replace old portable classrooms with permanent two-story construction
- Install a new hand sink in kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks, curbs, stairs and hardscape areas
- Upgrade heating, ventilation and air-conditioning systems
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Replace worn-out flooring where needed
- Resurface asphalt parking lots and playground areas as needed
- Improve grading at playfields
- Repair/replace/upgrade performance spaces/multipurpose rooms

Ericson Elementary School, 11174 Westonhill Drive, San Diego, CA 92126

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape
- Repair/replace heating and ventilation systems as needed
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Replace deteriorated flooring as needed
- Resurface asphalt parking lots and playground areas as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Euclid Elementary School, 4166 Euclid Avenue, San Diego, CA 92105

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up areas and vehicular circulation
- Provide additional parking space
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modification/additions to fencing and gates
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Replace old portable classrooms with permanent 2-story construction

Major Building Systems Repair/Replacement

- Repair/improve site sidewalks and hardscape play areas
- Repair/Upgrade building interiors, exteriors, finishes, and fixtures
- Upgrade electrical system
- Repair/replace heating, cooling, and ventilation systems as needed
- Repair/replace plumbing and sewer systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Fay Elementary School, 4080 52nd Street, San Diego, CA 92105

Fay Elementary School will open in fall, 2008 as a completely new facility. As one of San Diego Unified School District's newest schools, Fay Elementary School meets the current district facility standards. Future improvements, within the areas of need identified in the bond measure, may be required. This school will benefit from the site discretionary fund allocation of \$150 per student.

Field Elementary School, 4375 Bannock Avenue, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve bus and vehicular drop-off areas and site circulation
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Co-fund joint-use playfields with City of San Diego

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen and new hand sinks as needed
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape
- Repair/replace heating and ventilation systems as needed
- Repair sewer system as needed
- Repair/replace worn-out doors, locks and hardware as necessary
- Resurface asphalt parking lots and playground areas as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Upgrade electrical system as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Fletcher Elementary School, 7666 Bobolink Way, San Diego, CA 92123

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide improvements to bus and vehicle drop-off and loading areas
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace heating and ventilation systems as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Florence Elementary School, 3914 First Avenue, San Diego, CA 92103

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Renovate and expand food service areas
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/maintain site sidewalks and hardscape areas
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace heating and ventilation systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Foster Elementary School, 6550 51st Street, San Diego, CA 92120

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Install a site communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide air-conditioning in student educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Replace deteriorated flooring as needed
- Resurface asphalt parking lots and playground areas as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Franklin Elementary School, 4481 Copeland Avenue, San Diego, CA 92116

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install hand sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Freese Elementary School, 8140 Greenlawn Drive, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install hand sink
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Replace deteriorated flooring as needed
- Repair/replace damaged or stained ceiling finishes as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Upgrade electrical system as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Fulton School, 7055 Skyline Drive, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off/pick-up areas and bus loading zones
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install hand sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace worn-out doors, locks and hardware as necessary
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Gage Elementary School, 6811 Bisby Lake, San Diego, CA 92119

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Join with the City of San Diego to co-fund joint-use playfields
- Retrofit/install classroom heating, ventilation, and air-conditioning system

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace plumbing and sewer systems
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace aging wiring and upgrade electrical systems as needed.
- Repair/replace/upgrade performance spaces/multipurpose rooms

Garfield Elementary School, 4487 Oregon Street, San Diego, CA 92116

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II

- Replace worn-out flooring where needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Horton Elementary School, 5050 Guymon Street, San Diego, CA 92102

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Retrofit/install classroom heating, ventilation, and air-conditioning system

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install a grease trap to comply with city regulations in the kitchen
- Install hand sink in kitchen
- Replace old portable classrooms with permanent two-story construction

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Replace worn-out flooring where needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Ibarra Elementary School, 4877 Orange Avenue, San Diego, CA 92115

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)

Major Building Systems Repair/Replacement

- Install air-conditioning systems in educational spaces

Jefferson Elementary School, 3770 Utah Street, San Diego, CA 92104

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Expand/improve playfields and play areas

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install a grease trap to comply with city regulations in the kitchen
- Renovate and expand existing kitchen facility to meet district standards
- Install three-compartment sink and hand sink in kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Jerabek Elementary School, 10050 Avenida Magnifica, San Diego, CA 92131

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide improvements to vehicle circulation and pedestrian drop-off areas
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install new kitchen staff restroom and lockers
- Install a grease trap to comply with city regulations in the kitchen
- Replace old portable classrooms with permanent two-story construction

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/upgrade building interior/exterior finishes and fixtures as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Johnson Elementary School, 1355 Kelton Road, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide heating, ventilation, and air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Install new hand sink in food service area

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Renovate/replace old doors, locks and hardware as needed
- Replace/provide shelving and storage as needed
- Repair/replace building interior/exterior finishes and fixtures as needed
- Resurface asphalt parking lots and playgrounds as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Jones Elementary School, 2751 Greyling Drive, San Diego, CA 92123

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and center quad
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Replace deteriorated flooring as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Joyner Elementary School, 4271 Myrtle Avenue, San Diego, CA 92105

Joyner Elementary School opened in 2007 as a completely new facility. As one of San Diego Unified School District's newest schools, Joyner Elementary School meets the current district facility standards. Future improvements, within the areas of need identified in the bond measure, may be required. This school will benefit from the site discretionary fund allocation of \$150 per student.

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing

Juarez Elementary School, 2633 Melbourne Drive, San Diego, CA 92123

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Eliminate unsafe student drop-off/pick-up areas and improve vehicular circulation
- Improve pedestrian safety on school sidewalks and in parking areas
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Expand parking as space permits

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink and hand sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair and replace deteriorating plumbing and sewer systems
- Replace frayed or aging wiring
- Repair/restore building interiors, exteriors, finishes and fixtures as needed
- Resurface asphalt parking lots and playground areas as needed
- Upgrade electrical system as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Kimbrough Elementary School, 321 Hoitt Street, San Diego, CA 92102

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide air-conditioning in educational spaces
-

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Install three-compartment sink in kitchen
- Repair/replace/remove old portable classrooms
- Improve accessibility to classrooms, labs and other school facilities in order to comply with Americans with Disabilities Act (ADA).

Major Building Systems Repair/Replacement

- Repair/restore building interiors, exteriors, finishes and fixtures as needed
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Resurface asphalt parking lots and playground areas as needed

Knox School, 1098 South 49th Street, San Diego, CA 92113

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide additional instructional support space

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide new parking area at north end of campus
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II to include access to new classroom building
- Provide food service kiosk and shade shelter at new classroom building
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Replace portable classrooms and restroom facilities with new permanent construction to support curriculum needs

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape
- Repair/replace heating and ventilation systems as needed
- Repair/reconfigure building interior/exterior finishes and fixtures as needed
- Upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Kumeyaay Elementary School, 6475 Antigua Boulevard, San Diego, CA 92124

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Retrofit/install classroom heating, ventilation, and air-conditioning system

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Install three-compartment sink in kitchen
- Repair/replace/remove old portable classrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II

Major Building Systems Repair/Replacement

- Repair/restore building interiors, exteriors, finishes and fixtures as needed
- Resurface asphalt parking lots and playground areas as needed

La Jolla Elementary School, 1111 Marine Street, La Jolla, CA 92037

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Eliminate unsafe student drop-off/pick-up-areas and improve vehicular circulation
- Improve pedestrian safety on school sidewalks and in parking areas
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Install three-compartment sink and hand sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures as needed
- Repair/replace aging door assemblies and hardware where necessary
- Repair and replace gutters, downspouts, catch-basins and underground piping as needed
- Resurface asphalt parking lots and playground areas as needed
- Repair/replace heating and ventilation systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Lafayette Elementary School, 6125 Printwood Way, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Eliminate unsafe student drop-off/pick-up areas and improve vehicular circulation for buses
- Improve pedestrian safety on school sidewalks and in parking areas
- Provide more staff parking
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair and replace deteriorating plumbing and sewer systems
- Repair/replace aging wiring and electrical systems
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair ramps, stairs, floors and walls
- Repair and replace gutters, downspouts, catch-basins and underground piping where needed
- Replace worn-out flooring where needed
- Repair/replace heating and ventilation systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Language Academy, 4961 64th Street, San Diego, CA 92115

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide spaces to support K-8 grade configuration curriculum

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Add air-conditioning to educational spaces
- Join with the City of San Diego to co-fund joint-use playfields

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and add restrooms near multi-purpose room and lunch shelter
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Replace old portable classrooms with permanent two-story classroom building and include instructional support space and art lab to meet district standards

Major Building Systems Repair/Replacement

- Repair site sidewalks, curbs and hardscape areas
- Repair/replace deteriorating plumbing and sewer systems as needed
- Replace aging wiring and upgrade electrical systems as needed
- Replace worn-out flooring where needed
- Resurface asphalt parking lots and playground areas as needed
- Repair/reconfigure building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Lee Elementary School, 6196 Childs Avenue, San Diego, CA 92139

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Install air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms, including dedicated restrooms in kindergarten classrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace heating and ventilation systems as needed
- Repair/replace gutters, downspouts, catch-basins and underground piping as needed
- Replace worn-out flooring where needed
- Repair/upgrade building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Linda Vista Elementary School, 2772 Ulric Street, San Diego, CA 92111

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace deteriorating plumbing and sewer systems as needed
- Repair/replace heating and ventilation systems as needed
- Repair/replace ramps, stairs, floors and walls
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Replace deteriorated flooring as needed
- Resurface asphalt parking lots and playground areas as needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Lindbergh Schweitzer Elementary School, 4133 Mount Albertine Avenue, San Diego, CA 92111

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up and vehicular circulation
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink and hand sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Replace old portable classrooms with permanent two-story construction

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace deteriorating plumbing and sewer systems as needed
- Repair/replace heating and ventilation systems as needed
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/upgrade building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Logan School, 2875 Ocean View Boulevard, San Diego, CA 92113

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Make structural repairs to meet current seismic requirements

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink and hand sink in kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace heating and ventilation systems as needed
- Repair/replace ramps, stairs, floors and walls
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Repair/replace deteriorated ceiling finishes where needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/reconfigure building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Loma Portal Elementary School, 3341 Browning Street, San Diego, CA 92106

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up areas
- Expand parking area as space allows
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Improved kitchen facilities for other code compliance issues
- Install a grease trap to comply with city regulations in the kitchen
- Add new three-compartment sink

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Improve drainage and ponding for student safety where needed
- Replace deteriorated flooring as needed
- Repair/upgrade building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Longfellow School, 5055 July Street, San Diego, CA 92110

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Install a wireless network (WIFI)
- Provide educational spaces to support the K-8 grade configuration curriculum

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Improve student drop-off/pick-up area and site circulation, including parking areas

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and expand restroom capacity as needed
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks, curbs and hardscape areas
- Repair/replace/upgrade heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems as needed
- Replace old wiring and upgrade electrical systems as needed
- Resurface asphalt parking lots and playground areas as needed
- Repair/upgrade building interiors, fixtures, and finishes as needed
- Repair/upgrade exterior building systems, including replacement of windows as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Marshall Elementary School, 3550 Altadena Avenue, San Diego, CA 92105

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up area
- Provide additional parking
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Install new hand sinks

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/upgrade building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Marvin Elementary School, 5720 Brunswick Avenue, San Diego, CA 92120

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up areas
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Install new hand sinks

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Replace deteriorated flooring as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/upgrade building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Mason Elementary School, 10340 San Ramon Drive, San Diego, CA 92126

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up area
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/upgrade building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

McKinley Elementary School, 3045 Felton Street, San Diego, CA 92104

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve vehicular circulation on site
- Provide additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace retaining wall
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/upgrade building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Miller Elementary School, 4343 Shields Street, San Diego, CA 92124

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Replaced floor tiles at cafeteria as required
- Repair/replace aging wiring and electrical systems
- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace building interior/exterior finishes and fixtures as needed
- Resurface asphalt parking lots and playground areas as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Miramar Ranch Elementary School, 10770 Red Cedar Drive, San Diego, CA 92131

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area
- Provide increased pedestrian circulation near bus stops and crosswalks
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Replace/repair/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair roof at required areas
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Repair/replace building interior/exterior finishes and fixtures as needed
- Address acoustical issues as required
- Repair/replace/upgrade performance spaces/multipurpose rooms

Normal Heights Elementary School, 3750 Ward Street, San Diego, CA 92116

Normal Heights Elementary School opened in 2006 as a completely new facility. As one of San Diego Unified School District's newest schools, Normal Heights Elementary School meets the current district facility standards. Future improvements, within the areas of need identified in the bond measure, may be required. This school will benefit from the site discretionary fund allocation of \$150 per student.

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Provide accessible restrooms adjacent to the joint-use playground

North Park Elementary School, 4041 Oregon Street, San Diego, CA 92104

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/upgrade building interior/exterior finishes and fixtures as needed

Nye Elementary School, 981 Valencia Parkway, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Improve student drop-off and pick-up areas and site vehicular circulation

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace heating and ventilation systems as needed
- Repair/replace aging door assemblies and hardware where necessary
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/upgrade building interior/exterior finishes and fixtures as needed

Oak Park Elementary School, 2606 54th Street, San Diego, CA 92105

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide performing arts space and other spaces needed for curriculum

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Provide additional parking
- Install classroom heating, ventilation and air-conditioning systems
- Improve vehicular circulation

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Replace old portable classrooms with two-story permanent construction and include instructional support space and an art lab to meet district facilities standards
- Install three-compartment sink in kitchen

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems where required
- Replace aging wiring and upgrade electrical systems
- Repair/replace heating and ventilation systems as needed
- Replace deteriorated flooring as needed
- Repair/replace damaged or stained ceiling finishes as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/upgrade building interior/exterior finishes and fixtures, including windows, as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Ocean Beach Elementary School, 4741 Santa Monica Avenue, San Diego, CA 92107

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms in kindergarten and classrooms
- Renovate kitchen and food service areas and replace kitchen equipment as required
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace heating and ventilation systems as needed
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Replace deteriorated flooring as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace deteriorating plumbing and sewer systems as needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/upgrade building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Pacific Beach Elementary School, 1234 Tourmaline Avenue, San Diego, CA 92109

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area and add ADA accessible walkways from bus drop-off
- Improve pedestrian safety on school sidewalks and in parking areas
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Add restroom and locker area for kitchen staff
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Replace aging wiring and electrical systems as needed
- Repair/replace deteriorating plumbing and sewer systems as needed
- Repair/upgrade building interiors, finishes and fixtures as needed
- Repair/replace exterior walls along joint-use field
- Repair/replace exterior building systems, including windows, as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Paradise Hills Elementary School, 5816 Alleghany Street, San Diego, CA 92139

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including additions/modifications to perimeter fencing
- Provide air-conditioning in educational spaces
- Provide additional parking
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink and hand sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair cracked sidewalks
- Repair/replace deteriorating plumbing and sewer systems as needed
- Repair/replace worn-out doors, locks and hardware as necessary
- Resurface asphalt parking lots and playground areas as needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace building interior finishes and fixtures
- Repair/replace exterior building systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Penn Elementary School, 2797 Utica Drive, San Diego, CA 92139

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including additional perimeter fencing to prevent access from adjacent schools

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Replace old portable classrooms with permanent two-story construction and include instructional support space to meet district standards

Major Building Systems Repair/Replacement

- Repair cracked sidewalks
- Repair/replace heating, ventilation and air-conditioning systems as needed
- Replace worn-out flooring where needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace deteriorating plumbing and sewer systems as needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/reconfigure building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Perkins School, 1770 Main Street, San Diego, CA 92113

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up areas and improve vehicular circulation
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Repair/replace/remove old portable classrooms
- Install three-compartment sink in kitchen

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems as needed
- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace building interior/exterior finishes and fixtures as needed

Perry Elementary School, 6290 Oriskany Road, San Diego, CA 92139

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up area and improve vehicle traffic circulation
- Provide additional parking
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink and hand sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair cracked sidewalks
- Repair/upgrade building interiors, exteriors, finishes and fixtures
- Repair/replace asphalt paving where needed
- Repair/replace deteriorating plumbing and sewer systems as needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Porter Elementary School, 4800 T Street, San Diego, CA 92113

Porter Elementary School was opened in 2006 as a completely new facility. As one of San Diego Unified School District's newest schools, Porter Elementary School meets the current district facility standards. Future improvements, within the areas of need identified in the bond measure, may be required. This school will benefit from the site discretionary fund allocation of \$150 per student.

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Install/increase security lighting, as well as, increase vandalism and intrusion safeguards
- Install fencing at staff parking area

Rodriguez Elementary School, 825 South 31st Street, San Diego, CA 92113

Rodriguez Elementary School opened in 2007 as a completely new facility. As one of San Diego Unified School District's newest schools, Rodriguez Elementary School meets the current district facility standards. Future improvements, within the areas of need identified in the bond measure, may be required. This school will benefit from the site discretionary fund allocation of \$150 per student.

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)

Rolando Park Elementary School, 6620 Marlowe Drive, San Diego, CA 92115

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up area
- Improve pedestrian safety on school sidewalks and parking areas
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide additional parking
- Provide air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Repair/replace/remove old portable classrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a kitchen grease trap to comply with city regulations

Major Building Systems Repair/Replacement

- Repair cracked sidewalks and hardscape
- Repair/replace deteriorating plumbing and sewer systems as needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace building interior/exterior finishes and fixtures as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Rosa Parks Elementary School, 4510 Landis Street, San Diego, CA 92105

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Improve vehicular circulation with speed bumps and other safety features
- Provide air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace building interiors, exteriors, finishes and fixtures as needed from future wear

Ross Elementary School, 7470 Bagdad Street, San Diego, CA 92111

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Replace/repair/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems as needed
- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/upgrade interior finishes and fixtures
- Repair exterior walls and other building systems
- Repair/replace/upgrade performance spaces/multipurpose rooms

Rowan Elementary School, 1755 Rowan Street, San Diego, CA 92105

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Replace deteriorated flooring as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace building interior/exterior finishes and fixtures as needed
- Improve acoustics at campus
- Repair/replace/upgrade performance spaces/multipurpose rooms

Sandburg Elementary School, 11230 Avenida del Gato, San Diego, CA 92126

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide improvements to student drop-off and pick-up area
- Improve vehicular and pedestrian circulation
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications/additions to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace heating and ventilation systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures, including building fixtures
- Repair/replace deteriorating plumbing and sewer systems as needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace damaged asphalt and concrete paving areas, including parking areas
- Repair/replace/upgrade performance spaces/multipurpose rooms

Sequoia Elementary School, 4690 Limerick Avenue, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide directional signage for student drop-off and pick-up
- Expand parking area, providing additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards including modification to the restrooms
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Repair/replace/remove old portable classrooms
- Renovate and expand existing kitchen facility to meet district standards
- Install a grease trap to comply with city regulations
- Install three-compartment sink and hand sink in kitchen

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace worn-out doors, locks and hardware as necessary
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Repair/resurface damaged concrete and asphalt paving in playground area
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Sessions Elementary School, 2150 Beryl Street, San Diego, CA 92109

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Improve student drop-off and pick-up area

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Replace/repair/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace worn-out doors, locks and hardware as necessary
- Replace deteriorated flooring as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Sherman Elementary School, 450 24th Street, San Diego, CA 92102

Sherman Elementary School will open in fall, 2008 as a completely new facility. As one of San Diego Unified School District's newest schools, Sherman Elementary School meets the current district facility standards. Future improvements, within the areas of need identified in the bond measure, may be required. This school will benefit from the site discretionary fund allocation of \$150 per student.

Silver Gate Elementary School, 1499 Venice Street, San Diego, CA 92107

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and addition of gates where needed
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace heating and ventilation systems as needed
- Repair site sidewalks and hardscape areas as needed
- Repair/replace building interiors, exteriors, finishes and fixtures
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Replace deteriorated flooring as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Spreckels Elementary School, 6033 Stadium Street, San Diego, CA 92122

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area
- Improve bus loading zone and student drop-off area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace heating systems and improve ventilation as needed
- Improve site drainage
- Repair/upgrade building interiors, exteriors, finishes and fixtures
- Repair/replace deteriorating plumbing and sewer systems as needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Sunset View Elementary School, 4365 Hill Street, San Diego, CA 92107

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up areas and expand parking if feasible
- Install security lighting, as well as, increase vandalism and intrusion safeguards
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas as needed
- Repair/replace heating and ventilation systems as needed
- Repair/replace building interiors, exteriors, finishes and fixtures
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Tierrasanta Elementary School, 5450 La Cuenta Drive, San Diego, CA 92124

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Provide improvements to student drop-off and pick-up areas with signage
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas as needed
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Toler Elementary School, 3350 Baker Street, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area to provide additional parking spaces
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Install a site communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas as needed
- Repair/replace heating and ventilation systems as needed
- Repair/replace roofing system as needed
- Repair/replace building interiors, exteriors, finishes and fixtures
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Torrey Pines Elementary School, 8350 Cliffridge Avenue, La Jolla, CA 92037

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards
- Improve parking lot entrance and site vehicular/pedestrian circulation
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas as needed
- Repair/replace heating and ventilation systems as needed
- Repair/replace aging wiring and electrical systems
- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace building interiors, exteriors, fixtures and finishes, including doors as needed
- Repair site fencing and gates
- Repair/replace roofing as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Valencia Park Elementary School, 5880 Skyline Drive, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve student drop-off and pick-up
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including main office
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing student restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair/upgrade building interiors, exteriors, finishes and fixtures
- Repair/replace worn-out doors, locks and hardware as necessary
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Replace deteriorated flooring as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace deteriorating plumbing and sewer systems as needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Vista Grande Elementary School, 5606 Antigua Boulevard, San Diego, CA 92124

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Provide improvements to student drop-off and pick-up area
- Provide additional parking
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/replace building interior/exterior finishes and fixtures as needed
- Repair/replace heating, cooling and ventilation systems in portables and other areas as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Walker Elementary School, 9225 Hillery Drive, San Diego, CA 92126

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Provide improvements to student pick-up and drop-off areas and bus loading zone
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Improve ventilation system in food service areas
- Repair/replace playground asphalt, parking lots including around portables
- Repair/restore building interiors, exteriors, finishes and fixtures
- Renovate/replace old doors, locks and hardware as needed
- Upgrade electrical as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Washington Elementary School, 1789 State Street, San Diego, CA 92101

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Replace deteriorated flooring as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/upgrade building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Webster Elementary School, 4801 Elm Street, San Diego, CA 92102

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Designate area for student drop-off and pick-up, including providing directional signage and additional path of travel
- Expand parking area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Install air-conditioning in educational spaces
- Remove potentially hazardous materials in all buildings

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms, including kindergarten restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen
- Replace old portable classrooms with permanent two-story construction and include instructional support space and art lab to meet district standards

Major Building Systems Repair/Replacement

- Repair deteriorating plumbing and sewer system
- Repair site sidewalks and hardscape areas
- Replace worn-out flooring where needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/upgrade building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Wegforth Elementary School, 3443 Ediwhar Avenue, San Diego, CA 92123

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms, including staff restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen,
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems as needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace/upgrade performance spaces/multipurpose rooms

Whitman Elementary School, 4050 Appleton Street, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Expand parking area and improve vehicular circulation on site
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms, including plumbing
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair/replace heating and ventilation systems as needed
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage
- Replace deteriorated flooring as needed
- Resurface asphalt parking lots and playground areas as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace/upgrade performance spaces/multipurpose rooms

Zamorano Elementary School, 2655 Casey Street, San Diego, CA 92139

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system
- Improve pedestrian safety on school sidewalks and in parking areas
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including lighting in parking lot and perimeter fencing
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Install air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing student, staff and kindergarten restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II
- Provide new permanent classroom buildings to replace aging and obsolete classrooms and include instructional support space
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems as needed
- Improve heating, air-conditioning and ventilation systems in all buildings
- Repair site sidewalks and hardscape areas
- Repair and replace gutters, downspouts, catch-basins and underground piping as required to improve drainage and ponding for student safety where needed
- Replace deteriorated flooring as needed
- Repair/resurface worn and damaged concrete and asphalt paving where needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair fire alarm system as needed

Bell Middle School, 620 Briarwood Road, San Diego, CA 92139

Project Improvements to Support Student Learning and Instruction

- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Improve the student drop-off and pick-up area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Install air-conditioning in learning environments
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap in kitchen to comply with city regulations
- Provide new kitchen staff restroom and locker area

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems, including adding additional receptacle throughout campus
- Repair/replace buckling sidewalks and improve path of travel on site
- Repair broken steps
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace inefficient heating and ventilation systems
- Repair/replace deteriorating plumbing and sewer lines as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Challenger Middle School, 10810 Parkdale Avenue, San Diego, CA 92126

Project Improvements to Support Student Learning and Instruction

- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Improve the student drop-off and pick-up area
- Expand parking area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems, including adding additional receptacles throughout campus
- Repair/replace sidewalks as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace inefficient heating and ventilation systems, including library spaces
- Repair/replace deteriorating plumbing and sewer lines as needed
- Improve site drainage around auditorium

Clark Middle School, 4388 Thorn Street, San Diego, CA 92105

Project Improvements to Support Student Learning and Instruction

- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Install air-conditioning in learning environments
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap in kitchen to comply with city regulations
- Provide new kitchen staff restroom and locker area
- Replace/repair/remove old portable classrooms

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems, including adding additional receptacles throughout campus
- Repair/replace sidewalks and improve path of travel on site
- Repair/restore building interiors, exteriors, finishes and fixtures
- Replace aging wiring and upgrade electrical system

Correia Middle School, 4302 Valeta Street, San Diego, CA 92107

Project Improvements to Support Student Learning and Instruction

- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students, including auditorium

School Improvements to Support Student Health, Safety and Security

- Relocate bus-loading area and improve site circulation
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap in kitchen to comply with city regulations
- Replace/repair/remove old portable classrooms

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems
- Repair/replace sidewalks and hardscape as needed
- Repair/restore building interiors, exteriors, finishes and fixtures, including music room and auditorium flooring
- Repair/replace inefficient heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer lines as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

CPMA @ Kroc, 5050 Conrad Avenue, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Improvements to classrooms to support the VAPA curriculum
- Provide new performing arts building to support magnet school program

School Improvements to Support Student Health, Safety and Security

- Improve the student drop-off and pick-up area by adding an on-site bus-loading zone and a parent drop-off area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment
- Provide new performing arts building
- Provide additional visitor parking to accommodate visitors

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap in kitchen to comply with city regulations
- Provide new kitchen staff restroom and locker area

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems, including adding additional receptacles throughout campus
- Repair/replace sidewalks and improve path of travel on site
- Repair/restore classroom building exteriors, interiors, finishes and fixtures as needed
- Repair/replace inefficient heating and ventilation systems
- Repair/replace deteriorating plumbing and sewer lines as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Dana Middle School, 1775 Chatsworth Boulevard, San Diego, CA 92107

Project Improvements to Support Student Learning and Instruction

- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Improve the student drop-off and pick-up area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms and expand restroom capacity as needed
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap in kitchen to comply with city regulations

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems, including adding additional receptacle throughout campus
- Repair/replace sidewalks
- Repair/replace windows, roof and exterior systems as needed
- Repair/restore building interiors, finishes and fixtures as needed
- Repair/replace inefficient heating and ventilation systems
- Repair/replace deteriorating plumbing and sewer lines as needed

De Portola Middle School, 11010 Clairemont Mesa Boulevard, San Diego, CA 92124

Project Improvements to Support Student Learning and Instruction

- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Improve the student drop-off and pick-up area and improve site circulation
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Provide air-conditioning in learning environments
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate/expand food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems, including adding additional receptacles throughout campus
- Repair/replace sidewalks
- Repair/ replace roofing as needed
- Repair/restore building interiors with new finishes and fixtures as needed
- Repair/replace inefficient heating and ventilation systems
- Repair/replace deteriorating plumbing and sewer lines as needed
- Repair/replace exterior envelope including wall and window systems as needed.

Farb Middle School, 4880 La Cuenta Drive, San Diego, CA 92124

Project Improvements to Support Student Learning and Instruction

- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Reconfigure/renovate interior spaces to support curriculum needs better

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system for areas, specifically in restroom area
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II, e.g., portable ramps
- Install three-compartment sink in kitchen
- Install a grease trap in kitchen to comply with city regulations

Major Building Systems Repair/Replacement

- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Innovation Middle School @ MacDowell, 5095 Arvinels Avenue, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment
- Provide student P.E. lockers

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install a grease trap in kitchen in compliance with city regulations

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems, including adding additional receptacles throughout campus
- Repair/replace hardscape as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace inefficient heating and ventilation systems
- Repair/replace deteriorating plumbing and sewer lines as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Lewis Middle School, 5170 Greenbrier Avenue, San Diego, CA 92120

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WiFi)

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Retrofit/install upgraded heating, ventilation and air-conditioning systems in student educational environments
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Replace/repair/remove old portable classrooms

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems
- Repair/restore building interiors, exteriors, finishes and fixtures, including carpet
- Repair/replace deteriorating plumbing and sewer lines as needed
- Adapt IIS space to accommodate additional rooms
- Provide/replace shelving and storage as needed

Mann Middle School, 4345 54th Street, San Diego, CA 92115

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all student
- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WiFi)

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Install air-conditioning in learning environments
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Meet new, stringent health standards by renovating kitchens and food service areas

Major Building Systems Repair/Replacement

- Repair/replace inadequate permanent and portable classrooms and school buildings with permanent cost-effective construction.
- Repair/replace/upgrade performance spaces/multipurpose rooms

Marshall Middle School, 9700 Avenue of Nations, San Diego, CA 92131

Marshall Middle School opened in 2007 as a completely new rebuilt facility. As one of San Diego Unified School District's newest schools, Marshall Middle School meets the current district facility standards. Future improvements, within the areas of need identified in the bond measure, may be required. This school will benefit from the site discretionary fund allocation of \$150 per student.

Marston Middle School, 3799 Clairemont Drive, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Improve the bus drop-off and pick-up area and improve vehicular circulation and parking area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment
- Join with the City of San Diego to co-fund joint-use playfields

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate student and staff restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems
- Repair/replace sidewalks
- Repair/upgrade building interiors, finishes and fixtures, including acoustical improvements
- Repair/replace inefficient heating and ventilation systems
- Repair/replace deteriorating plumbing and sewer lines as needed
- Address site drainage problems
- Improve ventilation system in wood shop area
- Repair/upgrade building exterior as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Millennial Tech Middle School @ Gompers East, 1110 Carolina Lane, San Diego, CA 92102

Project Improvements to Support Student Learning and Instruction

- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Retrofit facilities to provide specialized middle school instruction

School Improvements to Support Student Health, Safety and Security

- Improve the student drop-off and pick-up area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems
- Repair/replace sidewalks and hardscape as needed
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace inefficient heating and ventilation systems, including library spaces
- Repair/replace deteriorating plumbing and sewer lines as needed

Montgomery Middle School, 2470 Ulric Street, San Diego, CA 92111

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Improve the student drop-off and pick-up area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install a grease trap in kitchen to comply with city regulations

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems, including adding additional receptacles throughout campus
- Repair/replace sidewalks and improve path of travel on site
- Repair/restore building interiors, exteriors, finishes and fixtures as needed
- Repair/replace deteriorating plumbing and sewer lines as needed
- Repair exterior systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Muirlands Middle School, 1056 Nautilus Street, La Jolla, CA 92037

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Improve the student drop-off and pick-up area and add parking
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms, fields and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap in kitchen to comply with city regulations

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems, including adding additional receptacles throughout campus
- Repair/replace buckling sidewalks
- Repair/restore building interiors, exteriors, finishes and fixtures, including flooring as needed
- Repair/upgrade inefficient heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer lines as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Pacific Beach Middle School, 4676 Ingraham Street, San Diego, CA 92109

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)
- Reconfigure/renovate existing underutilized space to provide current programs and meet curriculum needs

School Improvements to Support Student Health, Safety and Security

- Develop a student drop-off and pick-up area and improve site circulation
- Improve bus loading area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing, school entrance and gates
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate and expand food service areas to increase service efficiency and provide healthier food choices and eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate/reconfigure existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Provide new staff restroom and locker area for food service staff
- Install a grease trap in kitchen to comply with city regulations
- Provide kitchen staff restroom and locker area

Major Building Systems Repair/Replacement

- Replace aging wiring and receptacles
- Upgrade electrical systems as needed
- Repair/replace sidewalks, hardscape and improve path of travel on site
- Repair/upgrade building interiors with new finishes and fixtures, including carpeting in classrooms
- Repair/replace inefficient heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer lines as needed
- Repair/upgrade exterior building systems as needed, including replacement of old windows
- Repair/replace/upgrade performance spaces/multipurpose rooms

Pershing Middle School, 8204 San Carlos Drive, San Diego, CA 92119

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enable fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing, gates and school entry area
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate/expand food service areas to increase service efficiency, provide healthier food choices and improve eating environment
- Retrofit/install heating, ventilation and air-conditioning system in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink, grease trap and hand sink in kitchen
- Replace/repair/remove old portable classrooms

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace sidewalks as needed
- Repair/restore building interiors, finishes and fixtures
- Repair/replace deteriorating plumbing and sewer lines as needed
- Improve site erosion and drainage
- Repair/restore building exteriors as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Roosevelt Middle School, 3366 Park Boulevard, San Diego, CA 92103

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)
- Join with the city of San Diego to co-fund joint-use playfields

School Improvements to Support Student Health, Safety and Security

- Improve the student drop-off and pick-up areas from vehicles and buses
- Provide paved bus drop-off area for the Balboa Park program and improve site circulation
- Provide additional covered outdoor dining areas to accommodate student enrollment and special program
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas and add food kiosks to increase service efficiency and provide healthier food choices

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate/reconfigure existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install grease trap and three-compartment sink in kitchen
- Repair/replace/remove old portable classrooms

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems, including adding additional receptacles throughout campus
- Repair/replace sidewalks and hardscape, including playground areas
- Repair/restore building interiors, exteriors, finishes and fixtures, including windows and doors
- Repair/replace inefficient heating and ventilation systems
- Repair/replace deteriorating plumbing, sewer lines and storm sewer systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Standley Middle School, 6298 Radcliffe Drive, San Diego, CA 92122

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Improve the student drop-off and pick-up area and access drive connecting parking lots
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink, hand sink and grease trap in kitchen
- Repair/replace/remove old portable classrooms and address termite issues

Major Building Systems Repair/Replacement

- Repair/replace aging wiring and upgrade electrical systems
- Repair/replace damaged sidewalks and hardscape areas
- Repair/restore building interiors with new finishes and fixtures
- Repair/replace inefficient heating and ventilation systems as needed
- Repair/replace plumbing and sewer lines as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Taft Middle School, 9191 Gramercy Drive, San Diego, CA 92123

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Separate bus and vehicular student drop-off/pick-up areas and improve site pedestrian and vehicular circulation
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications/additions to fencing and gates, including new lighting in parking lot and in front of school
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and improve eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install grease trap and three-compartment sink in kitchen

Major Building Systems Repair/Replacement

- Replace aging wiring and low voltage systems and upgrade electrical systems as needed
- Repair/replace buckling sidewalks and improve path of travel on site
- Repair/restore building interiors, exteriors, finishes and fixtures
- Repair/replace inefficient heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer lines, including water heating systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Wangenheim Middle School, 9230 Gold Coast Drive, San Diego, CA 92126

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase bandwidth, which facilitates multiple concurrent applications
- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Improve the student drop-off and pick-up area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and provide control devices to restrict roof access
- Provide site safety communication system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas to increase service efficiency, provide healthier food choices and eating environment

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Improve accessibility to all classrooms, labs, restrooms and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install a grease trap in kitchen to comply with city regulations
- Provide new kitchen staff restroom and locker area
- Replace/repair/remove old portable classrooms

Major Building Systems Repair/Replacement

- Replace aging wiring and upgrade electrical systems
- Repair/replace sidewalks
- Repair/upgrade building interiors with new finishes and fixtures, including new carpeting and lighting as needed
- Repair/replace inefficient heating and ventilation systems
- Repair/replace deteriorating plumbing and sewer lines as needed
- Improve acoustical conditions in educational spaces as needed
- Repair/restore exterior building systems as needed, including window systems
- Repair/replace existing elevator
- Repair/replace/upgrade performance spaces/multipurpose rooms

Wilson Middle School, 3838 Orange Avenue, San Diego, CA 92105

This school would be rebuilt as a campus combined to house students from the Wilson and Central campuses. The school will have the capacity to house grades K-8. The reconstruction will meet new district facility standards.

Clairemont High School, 4150 Ute Drive, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Retrofit/build spaces to provide new and updated career technical learning environments for the Automotive Program and other supporting educational spaces
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Renovate food service area, including cafeteria, and provide food kiosks to increase service efficiency and provide healthier food choices
- Install security lighting, including lighting in the parking lot, as well as increase vandalism and intrusion safeguards, including modifications to existing fencing, to secure site
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Install three-compartment sink
- Complete renovation/modification of old bleachers, including new press box, to comply with accessibility regulations and code
- Upgrade fields and track for safety and accessibility
- Repair/replace/remove old portable classrooms
- Renovate or provide new accessible restrooms for stadium and fields with accessible concession booth

Major Building Systems Repair/Replacement

- Repair roofing, ramps, stairs, and walls as needed
- Repair site sidewalks and broken concrete
- Repair/upgrade building interiors, exteriors, finishes and fixtures, and address the needs in specialty classrooms
- Repair/replace outdated heating and ventilation systems, where needed
- Replace aging wiring and upgrade electrical systems, including adding additional power receptacles and data ports in library
- Repair/replace deteriorating sewer and plumbing systems
- Repair/replace/upgrade performance spaces

Crawford High School, 4191 Colts Way, San Diego, CA 92115

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Renovate food service area, including cafeteria, to increase service efficiency, provide healthier food choices for students, and create multi-use flexible spaces that could be used for study halls, video rooms, etc.
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates, to secure site
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Improve student drop-off and pick-up areas
- Reconfigure pedestrian circulation and layout on site in conjunction with the modified layout of Mann Middle School
- Install air-conditioning in educational spaces

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms including faculty facilities
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Titles I & II
- Install three-compartment sink in kitchen
- Replace old stadium bleachers and press box with elevator/lift
- Upgrade fields, including path of travel, for safe use and compliance with accessibility regulations
- New compliant ticket booths
- Repair/replace/remove old portable classrooms
- Renovate/reconfigure stadium restrooms and include concessions to provide compliant accessibility
- Provide accessible weight room/fitness space

Major Building Systems Repair/Replacement

- Repair site sidewalks and hardscape areas, including ramps and stairs as needed
- Repair/upgrade building roofing, interiors, exteriors, finishes, fixtures and windows as needed
- Repair/replace outdated heating and ventilation systems where needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces

Henry High School, 6702 Wandermere Drive, San Diego, CA 92120

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Renovate food service area, including cafeteria, and provide new food kiosks and covered exterior dining spaces to increase service efficiency and provide healthier food choices
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates, to secure site
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Retrofit/install educational spaces with a new heating, ventilation, and air-conditioning system
- Develop new student drop-off and pick-up areas away from bus loading zone and improve pedestrian circulation on site

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Install grease trap and three-compartment sink in kitchen
- Renovate old bleachers, including press box, and upgrade fields, track and path of travel for safe use and compliance with accessibility regulations
- Repair/replace/remove old portable classrooms
- Provide accessible restrooms and ticket booths for stadium
- Provide accessible weight room/fitness space

Major Building Systems Repair/Replacement

- Repair/replace deteriorated plumbing and sewer systems as needed
- Repair site sidewalks and concrete areas as needed
- Repair/upgrade building interiors, exteriors, finishes and fixtures as needed
- Replace aging wiring and upgrade electrical systems, including repair of exterior lighting where needed
- Repair ramps, stairs, floors, and walls as needed
- Repair/replace/upgrade performance spaces

Hoover High School, 4474 El Cajon Boulevard, San Diego, CA 92115

Project Improvements to Support Student Learning and Instruction

- Retrofit/build spaces to provide new and updated career technical learning environments for the Building Trades and Construction Program and other supporting educational spaces
- New/upgraded spaces to support academy programs and curriculum
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Renovate food service area, including cafeteria, and add food kiosks to increase service efficiency and provide healthier food choices
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates, to secure site
- Remove or minimize risks of any potentially hazardous material
- Retrofit/install a heating, ventilation, and air-conditioning system in educational spaces that do not already have air-conditioning
- Improve student drop-off and pick-up area

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Renovate gymnasium building to meet accessibility regulations
- Provide accessible, compliant wrestling room
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Install three-compartment sink and hand sink in kitchen
- Renovate/replace stadium bleachers, including press box
- Upgrade fields, track, and courts for accessibility compliance
- Build new two-story classroom building to replace old portable classrooms
- Provide accessible restrooms with storage for athletic equipment

Major Building Systems Repair/Replacement

- Replace leaking walkway canopies, sidewalks and concrete areas
- Repair/upgrade building interiors, exteriors, finishes and fixtures as needed
- Repair/replace outdated heating and ventilation systems where needed
- Replace aging wiring and upgrade electrical systems including theatre lightings and sound system
- Repair damaged walls, stairways, and ramps as needed
- Replace deteriorating sewer and plumbing systems as necessary
- Renovate/upgrade the auditorium building including new stage rigging

Kearny High School, 7651 Wellington Street, San Diego, CA 92111

Project Improvements to Support Student Learning and Instruction

- Retrofit/build spaces to provide new and updated career technical learning environments for the Construction Tech Academy and other supporting educational spaces
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Install new food kiosks and renovate food service area, including cafeteria, to increase service efficiency and provide healthier food choices
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates, to secure site
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Improve student drop-off and pick-up areas

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Install grease trap and other fixtures in kitchen to comply with codes
- Renovate old bleachers, including press box, and upgrade fields for safe use and compliance with accessibility regulations
- Build new two-story classroom building to replace old portable classrooms
- Provide new accessible restrooms for stadium
- Provide accessible weight room/fitness space to meet standards

Major Building Systems Repair/Replacement

- Repair/replace deteriorating sewer and plumbing systems as necessary
- Repair/replace roofing as needed
- Address water leaks in auditorium
- Repair/upgrade building interiors, exteriors, finishes and fixtures
- Repair/replace heating and ventilation system where needed
- Provide ventilation for room 909
- Repair/replace aging wiring and upgrade electrical systems including lighting
- Repair/replace/upgrade performance spaces

La Jolla High School, 750 Nautilus Street, La Jolla, CA 92037

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Renovate food service area, including cafeteria, to increase service efficiency and provide healthier food choices
- Provide food kiosks and additional covered exterior dining areas
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates, to secure site
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Improve student drop-off and pick-up area

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Renovate locker rooms and create additional storage space from underutilized square footage
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Install grease trap and three-compartment sink in kitchen
- Renovate/replace old stadium bleachers, including press box, storage, and accessible concessions
- Upgrade fields for safe use and compliance with accessibility regulations
- Provide new accessible restrooms for stadium and field area
- Provide accessible weight room/fitness space

Major Building Systems Repair/Replacement

- Repair/replace old and deteriorating plumbing and sewer lines as needed
- Repair site sidewalks, ramps, and stairs where needed
- Repair/upgrade building interiors, exteriors, finishes and fixtures as needed
- Repair/replace outdated heating and air-conditioning systems where needed
- Replace aging wiring and upgrade electrical systems, including the addition of needed data connections
- Repair/replace/upgrade performance spaces

Lincoln High School, 4777 Imperial Avenue, San Diego, CA 92113

Lincoln High School reopened in 2007 as a completely rebuilt facility. As one of San Diego Unified School District's newest schools, Lincoln High School meets nearly all the current district facility standards. Future improvements within the areas of need, identified in the bond measure, may be required. This school will benefit from the site discretionary fund allocation of \$150 per student.

Project Improvements to Support Student Learning and Instruction

- Retrofit facilities to improve specialized high school instruction

Madison High School, 4833 Doliva Drive, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Retrofit/build spaces to provide new and updated career technical learning environments for the Arts, Media and Entertainment Program and Automotive Technology Program and other supporting educational spaces
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Renovate food service area, including cafeteria, to increase service efficiency and provide healthier food choices
- Provide food kiosks and additional covered exterior dining areas
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates, to secure site
- Remove or minimize risks of any potentially hazardous material

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Install grease trap and three-compartment sink in kitchen
- Renovate kitchen restroom for accessibility
- Replace old wood plank bleachers and include press box with elevator, athletic equipment storage, and concessions that meet accessibility regulations
- Upgrade fields and track, and reconstruct tennis courts on grade to improve safety and comply with accessibility regulations
- Repair/replace/remove old portable classrooms
- Provide new accessible restrooms for both home and visitor sides of stadium
- Provide accessible weight room/fitness space

Major Building Systems Repair/Replacement

- Repair roofing, walls, and stairs as needed
- Repair site sidewalks and hard court areas where needed
- Repair/upgrade building interiors, exteriors, finishes and fixtures
- Repair/replace outdated heating and ventilation systems
- Repair/replace deteriorated sewer and plumbing systems
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces

Mira Mesa High School, 10510 Reagan Road, San Diego, CA 92126

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Renovate food service area, including cafeteria, to increase service efficiency and provide healthier food choices
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing, to secure site
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Modify site to expand bus drop-off and loading area
- Improve pedestrian safety in parking areas and other circulation space on site

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Renovate old bleachers, including new press box with elevator/lift
- Upgrade fields and track to improve safety and to comply with accessibility regulations
- Repair/replace/remove old portable classrooms
- Provide new accessible restrooms with storage for stadium and fields
- Provide accessible weight room/fitness space
- Provide accessible ticket booths

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems as needed
- Resurface existing parking lots
- Repair site sidewalks and multipurpose hard court surfaces where needed
- Repair asphalt circulation areas as needed
- Repair/upgrade building interiors, exteriors, finishes and fixtures as needed
- Repair/replace outdated heating and cooling systems and controls where needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces

Mission Bay High School, 2475 Grand Avenue, San Diego, CA 92109

Project Improvements to Support Student Learning and Instruction

- Retrofit/build spaces to provide new and updated career technical learning environments for the Entrepreneurship Program and other support and educational spaces, including the School Store and Café
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Renovate food service area, including cafeteria, and provide food kiosks to increase service efficiency and provide healthier food choices
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including additions and modifications to fencing, to secure site
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Improve student drop-off and pick-up areas

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Renovate/reconfigure existing locker rooms and develop storage area from underutilized square footage
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Install three-compartment sink in kitchen
- Renovate/reconstruct stadium bleachers, including a new press box with elevator, storage and accessible concessions
- New surfaces for fields and track for safe use and compliance with accessibility regulations
- Repair hard court and tennis court surfaces
- Provide new accessible restrooms for stadium
- Develop visitor entrance to stadium with accessible path of travel and new ticket booth and add parking as space allows
- Provide accessible weight room/fitness space

Major Building Systems Repair/Replacement

- Repair/replace deteriorating sewer and plumbing systems as needed
- Repair/upgrade building interiors, exteriors, finishes and fixtures
- Repair/replace outdated heating and ventilation systems
- Replace aging wiring and upgrade electrical as needed
- Repair/replace/upgrade performance spaces

Morse High School, 6905 Skyline Drive, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Retrofit/build spaces to provide new and updated career technical learning environments for the Child Development and Family Services Program, the Auto Ready Program, the Culinary Arts Program and other educational spaces to support program needs
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and site emergency communications system
- Renovate food service area, including cafeteria, and add food kiosks to increase service efficiency and provide healthier food choices
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications and additions to fencing and gates
- Remove or minimize risks of any potentially hazardous material
- Make structural repairs to buildings to meet current seismic standards
- Make modifications for slope stabilization on site

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Renovate/reconfigure locker rooms to provide compliant accessibility
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Titles I & II
- Install grease trap and three-compartment sink in kitchen
- Renovate/reconfigure stadium bleachers, including press box
- Upgrade fields and track for safe use and compliance with accessibility regulations
- Build new two-story classroom building to replace old portable classrooms
- Provide new accessible restrooms for stadium and include concessions and storage
- Develop separate visitor entrance with gates and ticket booth
- Provide accessible weight room/fitness space

Major Building Systems Repair/Replacement

- Repair/replace plumbing and electrical systems
- Repair/upgrade building interiors, exteriors, finishes and fixtures
- Repair/replace outdated heating and air-conditioning systems where needed
- Replace aging wiring and upgrade electrical as needed
- Repair/replace/upgrade performance spaces

Point Loma High School, 2335 Chatsworth Boulevard, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Retrofit/build spaces to provide new and updated career technical learning environments for the Arts, Media and Entertainment Program and other supporting educational spaces
- Modify existing space to provide appropriate music rooms
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Renovate food service area, including cafeteria, to increase service efficiency and provide healthier food choices
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing, to secure site
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Make structural repairs to meet current seismic standards in buildings
- Improve student drop-off and pick-up area
- Install/retrofit/repair heating, ventilation, and air-conditioning systems

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and renovate locker rooms
- Renovate gymnasium building, including elevator and new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install grease trap and three-compartment sink in kitchen
- Renovate old bleachers, including press box, and upgrade fields to improve safety and to comply with accessibility regulations
- Build new two-story classroom building to replace old portable classrooms
- Provide accessible restrooms for stadium
- Provide accessible weight room/fitness space

Major Building Systems Repair/Replacement

- Repair roofing as needed
- Repair/upgrade site sidewalks and hardscape areas where needed
- Repair/upgrade building interiors, exteriors, finishes and fixtures as needed
- Repair/replace outdated heating and air-conditioning systems where needed
- Replace aging wiring and upgrade electrical and low voltage systems
- Repair/replace/upgrade performance spaces

San Diego High School, 1405 Park Boulevard, San Diego, CA 92101

Project Improvements to Support Student Learning and Instruction

- Retrofit/build spaces to provide new and updated career technical and academy learning environments for the Multimedia Arts Program, Finance and Business Program, Hospitality, Tourism and Recreation Program and other supporting spaces
- Provide new/renovated performance spaces to support Performing Arts Academy
- Upgrade art and other labs with sinks and appropriate layout, finishes, and equipment to support curriculum
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Create food service area, including dining space, food kiosks, and outdoor covered dining areas to increase service efficiency and provide healthier food choices and eating areas
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications/additions to fencing
- Remove or minimize risks of any potentially hazardous material
- Make structural repairs to buildings to meet current seismic standards
- Improve student drop-off and pick-up area and add parking

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate/expand capacity of existing restrooms
- Renovate/reconfigure locker rooms to provide accessibility
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Install grease trap and three-compartment sink in kitchen
- Renovate old bleachers, press box, and upgrade fields for accessibility
- Build new two-story classroom building to replace old portable classrooms
- Provide accessible restrooms for stadium

Major Building Systems Repair/Replacement

- Repair/replace plumbing and sewer systems as needed
- Repair site sidewalks and hardscape areas where needed
- Repair/upgrade building interiors, exteriors, finishes and fixtures
- Repair/replace outdated heating and ventilation systems where needed
- Replace aging wiring and upgrade electrical and low voltage systems as needed

Scripps Ranch High School, 10410 Trenea Street, San Diego, CA 92131

Project Improvements to Support Student Learning and Instruction

- Retrofit/build spaces to provide new and updated career technical learning environments for the Sustainable Technologies Program and other supporting educational spaces
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Provide emergency communications system
- Install new heating, ventilation, and cooling systems in educational spaces
- Renovate food service area, including cafeteria and additional exterior dining areas, to increase service efficiency and provide healthier food choices and eating environments
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing, to secure site
- Improve vehicular and pedestrian circulation and parking conditions
- Address acoustical needs due to proximity to freeway

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Renovate/reconfigure stadium home team bleachers and provide new visitor bleachers
- Upgrade fields as required by wear for safe use and compliance with accessibility regulations
- Renovate restrooms for stadium to meet accessibility regulations

Major Building Systems Repair/Replacement

- Repair/replace damaged plumbing fixtures and sewer systems as needed
- Repair site sidewalks, ramps, and stairs where required
- Repair/upgrade building interiors, exteriors, finishes and fixtures as needed
- Replace aging wiring and upgrade electrical and low voltage systems as needed
- Repair/replace/upgrade performance spaces

Serra High School, 5156 Santo Road, San Diego, CA 92124

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Provide a wireless network (WIFI)
- Upgrade existing specialty educational spaces to meet program and curriculum needs

School Improvements to Support Student Health, Safety and Security

- Replace fire alarm and provide emergency communications system
- Renovate food service area, including cafeteria, and add food kiosks to site to increase service efficiency and provide healthier food choices
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications and additions to fencing and gates, to secure site

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms and locker rooms
- Renovate gym including new bleachers to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Renovate/rebuild stadium bleachers
- Upgrade fields and track to improve safety and to comply with accessibility regulations
- Build new two-story classroom building to replace aging portable classrooms
- Provide new or renovated accessible restrooms with athletic equipment storage for stadium and fields
- Install new heating, ventilation, and cooling systems in educational spaces

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems as needed
- Repair/replacement of sidewalks and asphalt areas where needed
- Repair/upgrade building interiors, exteriors, finishes and fixtures as needed
- Repair/replace hardscape as needed
- Replace aging wiring and upgrade electrical systems as needed
- Repair/replace/upgrade performance spaces

University City High School, 6949 Genesee, San Diego, CA 92122

Project Improvements to Support Student Learning and Instruction

- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Install a wireless network (WIFI)

School Improvements to Support Student Health, Safety and Security

- Replace obsolete fire alarm and emergency communications system
- Renovate food service area, including cafeteria, and add new food kiosks to increase service efficiency and provide healthier food choices
- Expand outdoor dining area
- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates, to secure site
- Join with the City of San Diego to co-fund joint-use playfields

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms, including faculty facilities
- Renovate/reconfigure locker rooms
- Renovate gym, including new bleachers, to meet accessibility regulations
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Titles I & II
- Renovate stadium bleachers
- Upgrade fields and track to improve safety and to comply with accessibility regulations
- Repair/replace/remove old portable classrooms
- Provide accessible restrooms with storage for stadium and fields
- Provide accessible weight room/fitness space

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer lines as needed
- Repair site sidewalks and hard court areas where needed
- Repair/upgrade building interiors, exteriors, finishes and fixtures as needed
- Repair/replace outdated heating and air-conditioning systems where needed
- Address air quality and ventilation issues in science and technology labs
- Replace aging wiring and upgrade electrical and low voltage systems as needed

ALBA Middle School @ Marston

ALBA High School @ Mann, Alternative Learning for Behavior & Attitude

Project Improvements to Support Student Learning and Instruction

- Retrofit/build classrooms, labs, facilities to improve specialized instruction at a new site to be determined

School Improvements to Support Student Health, Safety and Security

- Provide campus-wide emergency communications system

Projects to Improve School Accessibility, Code Compliance Upgrades

- Repair/replace/remove old portable classrooms
- Repair/restore building interiors, exteriors, finishes and fixtures
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations including ADA Title I & II

Del Sol Academy @ Whittier, 3401 Clairemont Drive, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install a site communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Repair/replace/remove old portable classrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace frayed or aging electrical wiring
- Upgrade electrical systems for technology
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks, hardscape, and playground areas
- Repair/replace heating and ventilation systems as needed

Garfield High School, 1255 16th Street, San Diego, CA 92101

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Retrofit/build spaces to provide new and updated career technical learning environments for the Culinary Arts Program and other spaces to support program needs

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards
- Provide campus-wide emergency communications system

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen

Major Building Systems Repair/Replacement

- Upgrade electrical systems for technology
- Repair/restore building interiors, exteriors, finishes, and fixtures, including multi-purpose room lighting
- Repair site sidewalks and hardscape areas

Mount Everest Academy @ Wiggan, 4350 Mt. Everest Boulevard, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards
- Provide campus-wide emergency communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Repair/replace/remove old portable classrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Improve kitchen and food service areas as required to meet new, stringent health standards

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace frayed or aging electrical wiring
- Upgrade electrical systems for technology
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed

Muir School @ Anderson, 4431 Mt. Herbert Avenue, San Diego, CA 92117

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Retrofit/build classrooms, labs, facilities as needed

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards around library, lunch court, and relocatables
- Provide campus-wide emergency communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Improve kitchen and food service areas as required to meet new, stringent health standards

Major Building Systems Repair/Replacement

- Repair/replace outdated heating and ventilation systems where needed
- Replace aging wiring and upgrade electrical systems as needed
- Upgrade electrical systems for technology
- Repair/restore building interiors, exteriors, finishes, and fixtures, including rain gutters
- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed

Riley/New Dawn School, 5650 Mt. Ackerly Drive, San Diego, CA 92111

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing and gates
- Provide campus-wide emergency communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Repair/replace/remove old portable classrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap to comply with city regulations in the kitchen

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace frayed or aging electrical wiring
- Upgrade electrical systems for technology
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed

School of Creative and Performing Arts, 2425 Dusk Drive, San Diego, CA 92139

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards
- Install a site communications system
- Renovate food service area, including cafeteria, and provide food kiosks to increase service efficiency and provide healthier food choices

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms, including kitchen staff restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Meet new, stringent health standards by renovating kitchens and food service areas

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace frayed or aging electrical wiring
- Upgrade electrical systems for technology
- Repair/restore building interiors, exteriors, finishes, and fixtures, including floors at dance studios and auditorium stage
- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed

Twain School, 6402 Linda Vista Road, San Diego, CA 92111

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards
- Install a site communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Repair/replace/remove old portable classrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a grease trap in the kitchen to comply with city regulations

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace frayed or aging electrical wiring
- Upgrade electrical systems for technology
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed

Darnall Charter School, 6020 Hughes Street, San Diego, CA 92115

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards
- Provide campus-wide emergency communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Retrofit/install classroom heating, ventilation, and air-conditioning systems to comply with district standards

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a kitchen grease trap to comply with city regulations

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems as needed
- Repair aging electrical wiring
- Upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes, and fixtures, including drinking fountains
- Repair site sidewalks
- Repair/replace/upgrade performance spaces/multipurpose rooms

Instein Academy @ Brooklyn, 3035 Ash Street, San Diego, CA 92102

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install exterior lighting for safety
- Install a site communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a kitchen grease trap to comply with city regulations
- Install new hand sink in kitchen area

Major Building Systems Repair/Replacement

- Repair/replace old electrical wiring
- Upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace/upgrade performance spaces/multipurpose rooms

Gompers Charter MS @ Gompers West, 1005 47th Street, San Diego, CA 92102

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase band width, which facilitates multiple concurrent applications

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards
- Provide campus-wide emergency communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Retrofit/install classroom heating, ventilation, and air-conditioning systems to comply with district standards
- Meet increased earthquake/seismic standards in classroom and administration buildings and Building #15
- Join with the City of San Diego to co-fund joint-use playfields

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a kitchen grease trap to comply with city regulations

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace frayed or aging electrical wiring
- Upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace/upgrade performance spaces/multipurpose rooms

Iftin Charter School @ Jackson, 5465 El Cajon Boulevard, San Diego, CA 92115

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards
- Provide directional signage for student drop-off and pick-up
- Expand parking area
- Install a site communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Retrofit/install classroom heating, ventilation, and air-conditioning systems to comply with district standards
- Meet increased earthquake/seismic standards in classroom and administrative buildings

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Repair/replace/remove old portable classrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a kitchen grease trap to comply with city regulations

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace frayed or aging electrical wiring
- Upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace/upgrade performance spaces/multipurpose rooms

Keiller Leadership Academy, 7270 Lisbon Street, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards
- Provide campus-wide emergency communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Retrofit/install classroom heating, ventilation, and air-conditioning systems to comply with district standards
- Renovate food service area, including cafeteria, and provide food kiosks to increase service efficiency and provide healthier food choices
- Expand kitchen area to meet district standards

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms, including kitchen staff restroom
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install a kitchen grease trap to comply with city regulations
- Install new hand sink in kitchen area

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace frayed or aging electrical wiring
- Upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace/upgrade performance spaces/multipurpose rooms

King/Chavez Academies @ King, 415 31st Street, San Diego, CA 92102

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install a site communications system

Projects to Improve School Accessibility, Code Compliance Upgrades

- Repair/replace/remove old portable classrooms
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II

King/Chavez Academy of Excellence @ Memorial, 2850 Logan Avenue, San Diego, CA 92113

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install a site communications system

Projects to Improve School Accessibility, Code Compliance Upgrades

- Repair/replace/remove old portable classrooms
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II

Memorial Academy, 2850 Logan Avenue, San Diego, CA 92113

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students
- Enhance fiber optics in classrooms to increase band width, which facilitates multiple concurrent applications

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Install a site communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Renovate food service areas, including cafeteria, and provide food kiosks to increase service efficiency and provide healthier food choices

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Improve kitchen and food service areas as required to meet new, stringent health standards

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace frayed or aging electrical wiring
- Upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Momentum Middle School @ Cleveland, 6365 Lake Atlin Avenue, San Diego, CA 92119

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Install a site communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Retrofit/install classroom heating, ventilation, and air-conditioning systems to comply with district standards

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Meet new, stringent health standards by renovating kitchens and food service areas

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace frayed or aging electrical wiring
- Upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace/upgrade performance spaces/multipurpose rooms

O'Farrell Community School, 6130 Skyline Drive, San Diego, CA 92114

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Provide campus-wide emergency communications system

- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace heating and ventilation systems as needed
- Repair/replace/upgrade performance spaces/multipurpose rooms

Tubman Village School, 6880 Mohawk Street, San Diego, CA 92115

Project Improvements to Support Student Learning and Instruction

- Install a wireless network (WIFI)
- Provide 21st century technology upgrades, including audiovisual projection capabilities for all students

School Improvements to Support Student Health, Safety and Security

- Install security lighting, as well as, increase vandalism and intrusion safeguards, including modifications to fencing
- Provide campus-wide emergency communications system
- Remove or minimize risks of any potentially hazardous material throughout the facility
- Retrofit/install heating, ventilation, and air-conditioning systems to comply with district standards

Projects to Improve School Accessibility, Code Compliance Upgrades

- Renovate existing restrooms
- Improve accessibility to all classrooms, labs, restrooms, and other school facilities to comply with accessibility regulations, including ADA Title I & II
- Install three-compartment sink in kitchen
- Install a kitchen grease trap to comply with city regulations

Major Building Systems Repair/Replacement

- Repair/replace deteriorating plumbing and sewer systems
- Repair/replace frayed or aging electrical wiring
- Upgrade electrical systems as needed
- Repair/restore building interiors, exteriors, finishes, and fixtures
- Repair site sidewalks and hardscape areas
- Repair/replace/upgrade performance spaces/multipurpose rooms

Additional Projects

- Provide matching funds to construct classrooms and schools to accommodate enrollment growth for new housing developments in the Miramar area
- Retrofit and build classrooms, labs and facilities to improve specialized instruction
- Provide matching funds to construct classrooms and schools in the downtown area to meet educational needs of the district

Each project listed is assumed to include its share of costs of the election and bond issuance and other construction-related costs, such as construction management, architectural, engineering, inspection and other planning costs, legal, accounting and similar fees, independent annual financial and performance audits, a customary construction contingency, and other costs incidental to and necessary for completion of the listed projects (whether work is performed by the District or by third parties), including:

- Remove, dispose of, and otherwise remediate hazardous materials, including asbestos, lead, etc., where necessary;
- Address unforeseen conditions revealed by construction/modernization (including plumbing or gas line breaks, dry rot, seismic, structural, etc.);
- Other improvements required to comply with existing building codes, including the Field Act, and access requirements of the Americans with Disabilities Act (ADA);
- Necessary site preparation/restoration in connection with new construction, renovation or remodeling, or installation or removal of relocatable classrooms, including ingress, egress, parking and student dropoff, traffic lights and mitigation; demolition of existing structures; removing, replacing, or installing irrigation, drainage, utility lines (gas, water, sewer, electrical, data and voice, etc.), trees and landscaping; relocating fire access roads; and acquiring any necessary easements, licenses, or rights of way to the property;
- Rent or construct storage facilities and other space on an interim basis, as needed to accommodate construction materials, equipment, and personnel, and interim classrooms (including relocatables) for students and school functions or other storage for classroom materials displaced during construction;
- Acquisition of any of the facilities on the Bond Project List through temporary lease or lease-purchase arrangements, or execute purchase option under a lease for any of these authorized facilities;
- Furnishing and equipping of existing and newly constructed, modernized or rehabilitated classrooms and facilities on an ongoing basis, including to replace worn, broken, or out-of-date furniture and equipment for all classrooms, athletic facilities and other facilities, as needed; and
- Repair, upgrade, modify, expand, refinish, replace and construct site improvements, including off-street parking areas, pickup/dropoff, signage, paths, sidewalks and walkways, canopies, hard courts (student play areas), athletic play fields, landscaping, irrigation, permanent athletic field equipment and facilities (including nets, basketball standards, goals and goalposts, backstops), field lighting, etc.

FURTHER SPECIFICATIONS

Specific Purposes. All of the purposes enumerated in this proposition shall be united and voted upon as one single proposition, pursuant to Education Code Section 15100, and shall constitute the specific purposes of the bonds, and proceeds of the bonds shall be spent only for such purposes, pursuant to Government Code Section 53410.

Joint Use. The District may enter into agreements with the City of San Diego, County of San Diego, or other public agencies or nonprofit organizations for joint use of school facilities financed with the proceeds of the bonds in accordance with Education Code Section 17077.42 (or any successor provision). The District may seek State grant funds for eligible joint-use projects as permitted by law, and this proposition hereby specifies and acknowledges that bond funds will or may be used to fund all or a portion of the local share for any eligible joint-use projects identified in the Bond Project List or as otherwise permitted by California State regulations, as the Board of Education shall determine.

FURTHER SPECIFICATIONS (Continued)

Sustainability Standards. The Board of Education has adopted Guidelines for Sustainable Construction, requiring design professionals and staff to follow California's Collaborative for High Performance Schools (CHPS) standards and best practices for all future District building projects. These standards incorporate the latest green building practices to reduce operating costs, reduce environmental impact, and increase building life, while creating schools that are healthy, comfortable, well lit and well equipped.

The District intends to incorporate sustainable site design, water conservation, energy efficiency, improving indoor air quality and incorporating sustainable materials and products into the bond projects, emphasizing long term life cycle cost analysis in its design process. It is intended that planned maintenance work will also incorporate improvements to existing facilities with respect to sustainability and energy conservation, whenever feasible.

Other Terms of the Bonds. When sold, the bonds shall bear interest at an annual rate not exceeding the statutory maximum, payable at the time or times permitted by law. The bonds may be issued and sold in several series, and no bond shall be made to mature more than the legal maximum of 40 years from the date borne by that bond.

Renovation/Modernization. For purposes of the Bond Project List, renovation and modernization projects are intended to restore the building systems and infrastructure, weather protections, finishes, and technology, or reallocate and reorganize space, to a condition that will provide a sustainable, functional educational and administrative environment for future years, comparable to new construction. Renovation projects may include, but are not limited to nor necessarily encompass, all of the following, depending upon the age, condition and needs of each particular school facility:

- upgrade electrical, communication (including data and voice), fire alarm, and similar building systems as well as main power service and distribution, which may include active and passive solar power and heating system acquisition, installation and construction;
- replace, repair or upgrade plumbing, piping and drainage systems, including gas and water supply, meters, water heating, and wastewater systems, plumbing fixtures and sinks, etc., within buildings and sites and to connect with city supply and drainage systems;
- replace or modify aging heating, ventilation and air cooling systems with energy-efficient heating and air cooling systems (HVAC), including installing energy management systems (EMS);
- replace, modify, upgrade interior lighting and exterior safety/security lighting systems and fixtures, as necessary;
- repair, modify and construct structural elements of the existing structure as necessary;
- replace or repair aging roofs with similar materials or District standard materials;
- replace, repair, install and construct, as necessary, interior spaces: walls, floor and ceiling finishes, doors, door locks, windows, cabinets and casework, and equipment attached to wall surfaces (including white boards, marker boards, tack boards, television mounts, scoreboards, fire extinguishers, kitchen cabinets/equipment, etc.);
- upgrade, modify and construct restroom facilities;
- comply, as necessary, with Americans with Disabilities Act (ADA) and Title 24 requirements;
- refinish the exterior finishes of the school (including stucco, wood and metal trims, wood siding, paint, etc.); replace doors and windows;
- modify, expand, separate, convert and construct school support areas, including staff work and lunch areas, to provide adequate, functional environments; and
- modify, replace and construct functional components of altered or replaced building components (including rainwater leaders, fascias, mansards, etc.).

For any project involving renovation, repair or rehabilitation of a building or the major portion of a building, the District shall be authorized to proceed with new replacement construction instead (including any necessary demolition), if the Board of Education determines that replacement and new construction is more practical than rehabilitation and renovation, considering the building's age, condition, expected remaining life, comparative cost, and other relevant factors.

The Bond Project List shall be considered a part of this ballot proposition, and shall be reproduced in any official document required to contain the full statement of the bond proposition.
